CATALOG PURPOSE

This catalog records the Noel.Xero exhibition as a public-facing historical reference: named standalone works, the multi-year series Marked Alight of Xero Born, installation views, prices supplied for the exhibition, and stable catalog identifiers. Where dimensions, dates, or individual material formulations were not supplied, the catalog leaves them unasserted rather than filling gaps. Prices reflect the registered exhibition state at compilation and may change with availability.

SALES / CONTACT

Untitled works from Marked Alight of Xero Born are for sale. Inquire for pricing and current availability at noel@noelnoelconrad.com.

ARCHIVAL CONVENTIONS

This print catalog is a derived projection of the registered Noel.Xero exhibition data. Artwork display images are edge-cropped derivatives made from artist-supplied photographs; the underlying source photographs remain retained separately. Stable record identifiers preserve continuity when titles, scans, prices, or descriptions are corrected later. For the untitled series, the numerical suffix is an archival address and not a formal artwork title.

SALES NOTE

Named prices reproduce the registered exhibition information supplied for this catalog. Untitled series works and named works without a listed price are offered by inquiry. Availability and pricing may change after this edition.
